

CLASS 2 NEWS

SEPTEMBER 2021

Dream, Believe, Learn and Achieve...

This half term looks amazing!

We're looking super busy and with good weather forecast we plan to take our learning outside when possible.

English

This term, we will be learning about how our continuous provision in English works while focusing on our handwriting and presentation, learning to read and write our high frequency words and learning what makes a sentence. We will begin to become story masters which will include us learning about what makes a story and doing lots of talking and acting to help our writing.

Maths

Children will build on their existing knowledge of counting forwards and backwards. We will introduce/recap the 'teen' numbers and discuss the value of each digit in a number. We will also add and subtract numbers.

In addition, all children will learn strategies to support the knowledge of number facts. This will be a short session taught after lunch, four times a week.

RE

We will read the creation story and say what the story tells Christians about God, Creation and the world.

Science

This term, we will be learning about the different parts of the human body and how and why it is important to keep our bodies healthy

History

We will look at the history and importance of famous people including Neil Armstrong and how his landing on the moon changed history. We will learn about Queen Elizabeth and Queen Victoria. We will also learn about iconic figures such as Rosa Parks, Emily Davidson and Martin Luther King Jr.

ICT

This term, we will be completing our unit on online safety and getting to know purple mash.

Art & DT

This half term, children will be focusing on creating two art projects. One will involve children taking charge of creating their own sketchbook using materials around the home and the other will be making boats that float.

SMSC/PSHE

This term we are discussing our hopes and fears for the year, rights and responsibilities, rewards and consequences. We have agreed on and will own our learning charter.

PE

We will begin to apply basic movements in a range of activities while learning to work individually and with others, which will help us to engage in cooperative physical activities. We look forward to engaging in competitive physical activities (both against ourselves and against others).

We are looking forward to having lots of fun together.

Thank you for your continued support.

Mrs Morris, Mrs Bamber and Mrs Warner
